Just a quick note to let you know how much we appreciated working with Lapeer Awning & Window several years ago and again this year. We were careful about our choice prior for our first three window replacements, because it would play a big role in our decision to select a company to replace the remaining windows throughout our entire home.

We were consistent and went with you this year to do just that. The process of having the widows quoted, measured and ordered was pleasant and painless. Plus just as important to our decision to select your company, was knowing the same person would be installing our windows again this year.

Dave is exceptional. His customer service skills are outstanding and he was considerate of our wishes during all installations. In fact, knowing we would have his expertise and skills working again on our behalf, did make a difference in us deciding to select Lapeer Awning and Window yet again this year. Please know that we respect his work and you are truly blessed to have him on your team.

We are very grateful for our new windows, your company and especially for your fine installer Dave. Many thanks!

Sincerely,
Lea Anne & Brian Ivory
